IronPeak Fitness Club

The website introduces a gym, its workout programs, facilities, trainers, membership options, and classes. The main hero heading is "BUILD YOUR STRONG."

TOPIC NOTE

Your message says "fest management website," but all three supplied screenshots show a fitness center and gym website named IronPeak Fitness Club. This report describes the content shown in the screenshots.

TITLE DESCRIPTION

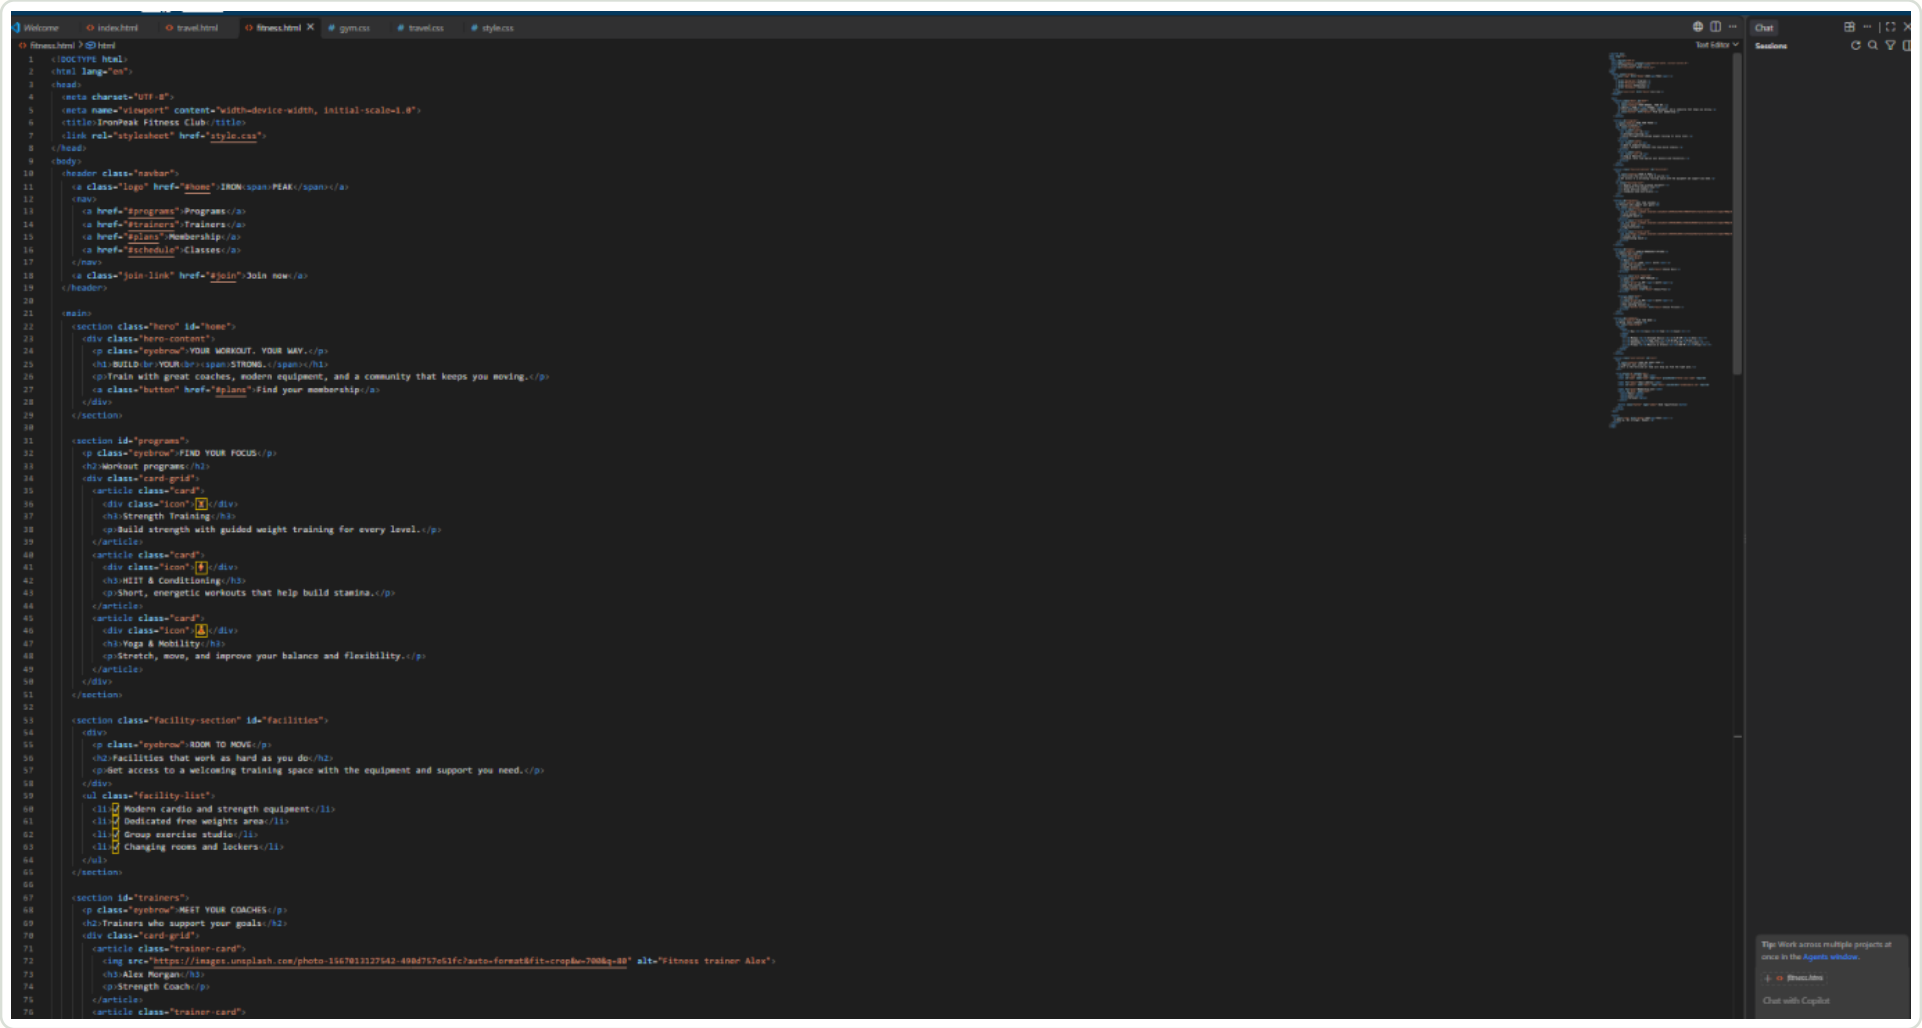

The HTML browser-tab title is "IronPeak Fitness Club". It identifies the website in the browser tab. The visible page title is "BUILD YOUR STRONG," which promotes the gym and its fitness message.

REPORT ORDER

Page 2: HTML screenshot. Page 3: HTML element explanations. Page 4: CSS screenshot. Page 5: CSS rule explanations. Page 6: browser output. Page 7: conclusion.

1. HTML Code Screenshot

The first supplied image shows the IronPeak Fitness Club HTML file.

The visible code includes document setup, the navigation bar, hero banner, workout programs, facilities, trainer cards, and the start of membership plans.

HTML Description - Line by Line

Line ranges are approximate, based on the line numbers visible in the screenshot.

Lines 1-8 | Document setup

DOCTYPE identifies HTML5. The html element sets English as the language. The head includes character and screen-size settings, the tab title, and a link to the CSS file.

Lines 10-19 | Navigation bar

The header contains the IRONPEAK logo, navigation links for Programs, Trainers, Membership, and Classes, and a Join now link. The links point to sections on the same page.

Lines 21-29 | Hero banner

The hero section contains a short slogan, the large heading BUILD YOUR STRONG, a supporting sentence, and a button linking to membership plans.

Lines 31-51 | Workout programs

Three cards introduce Strength Training, HIIT and Conditioning, and Yoga and Mobility. Each card has an icon, a heading, and a short description.

Lines 53-65 | Fitness facilities

This section describes the training space and lists cardio and strength equipment, free weights, a group exercise studio, changing rooms, and lockers.

Lines 67-88 | Trainers

Trainer cards contain image links, alternative text, names, and roles for Alex Morgan, Priya Shah, and Jordan Lee.

Lines 90 onward | Membership plans

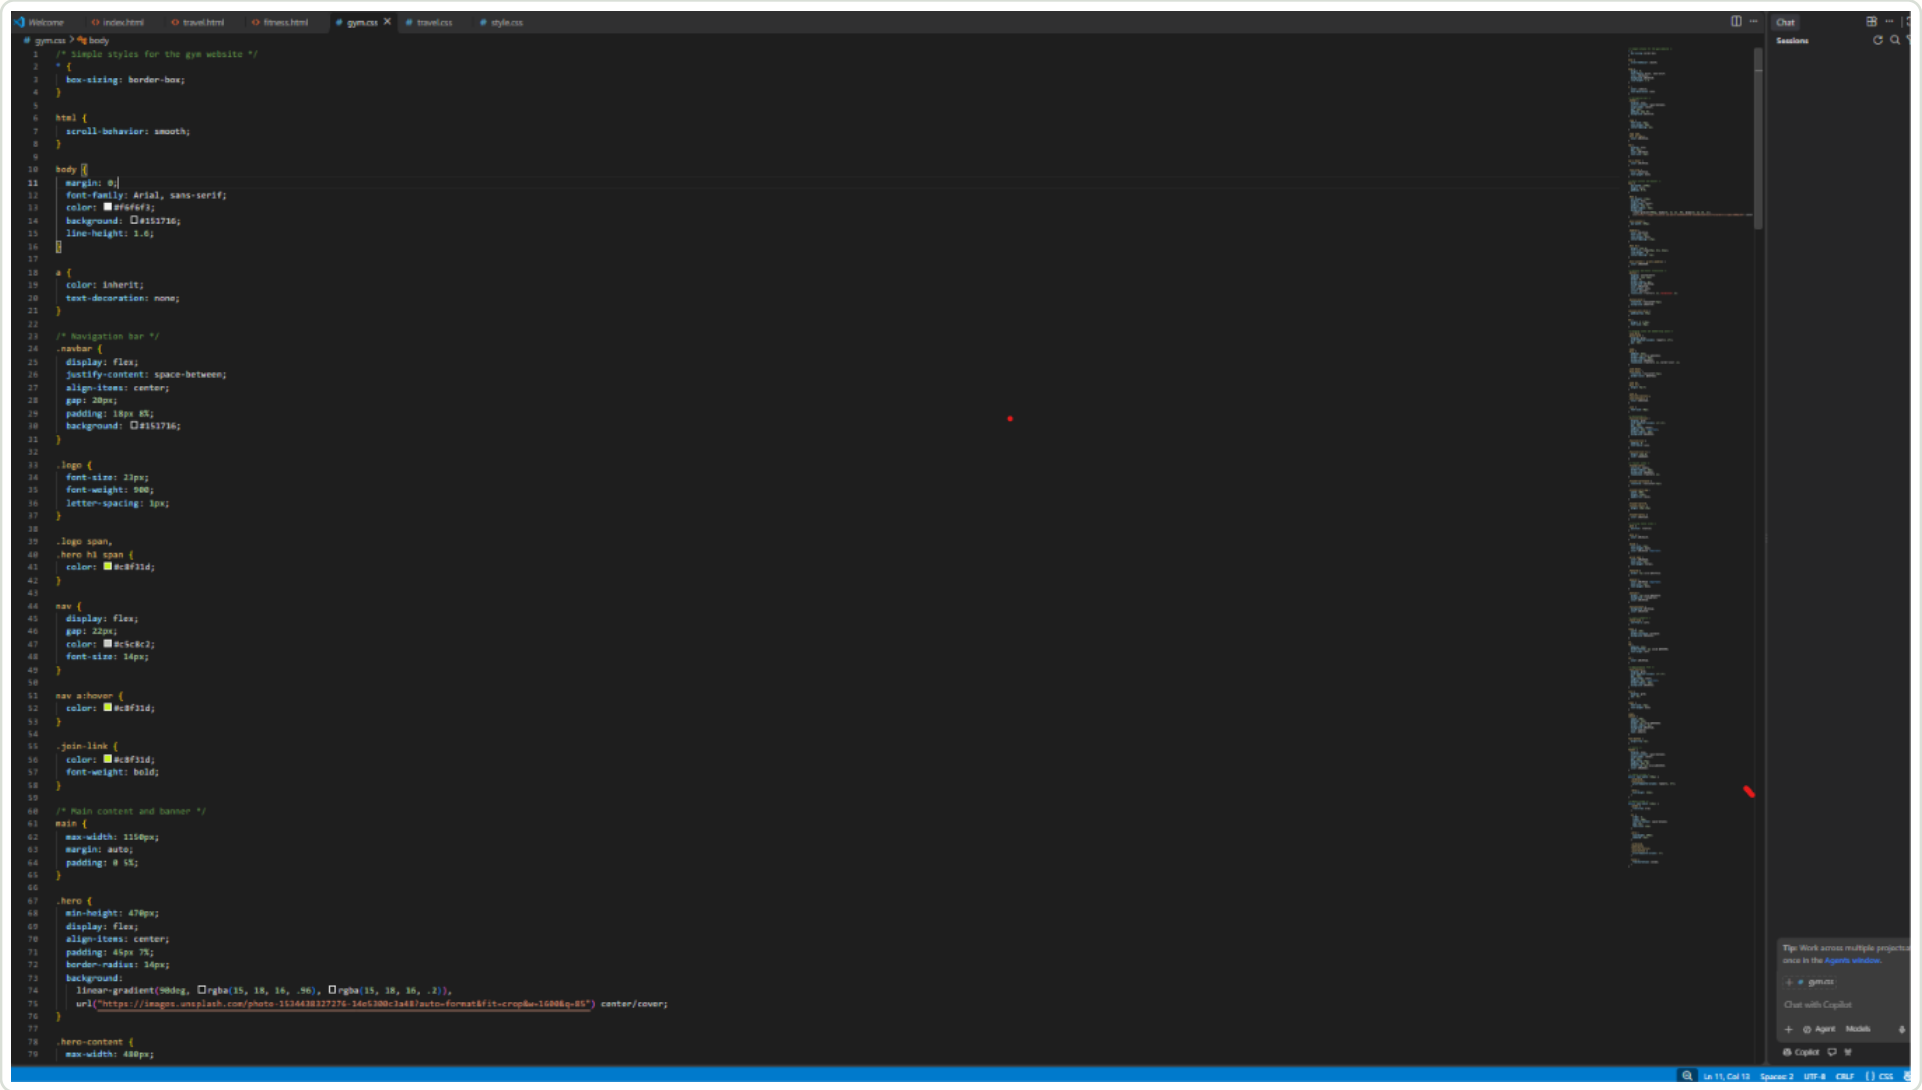

The screenshot begins a membership section and shows the start of the Basic plan. More plan details continue below the captured screen.

HTML elements used

header and nav build the top bar; main and section group content; article groups cards; h1-h3 make headings; p holds text; a creates links; img shows trainer pictures; ul and li make lists.

2. CSS Code Screenshot

The second supplied image shows gym.css and the beginning of its CSS rules.

```
/* Simple styles for the gym website */
* {
  box-sizing: border-box;
}

html {
  scroll-behavior: smooth;
}

body {
  margin: 0;
  font-family: Arial, sans-serif;
  color: #f6f6f3;
  background: #151716;
  line-height: 1.6;
}

a {
  color: inherit;
  text-decoration: none;
}

/* Navigation bar */
.navbar {
  display: flex;
  justify-content: space-between;
  align-items: center;
  gap: 20px;
  padding: 18px 8%;
  background: #151716;
}

.logo {
  font-size: 23px;
  font-weight: 900;
  letter-spacing: 1px;
}

.logo span,
.hero h1 span {
  color: #c8f31d;
}

nav {
  display: flex;
  gap: 22px;
  color: #c5c8c2;
  font-size: 14px;
}

nav a:hover {
  color: #c8f31d;
}

.join-link {
  color: #c8f31d;
  font-weight: bold;
}

/* Main content and banner */
main {
  max-width: 1150px;
  margin: auto;
  padding: 0 5%;
}

.hero {
  min-height: 470px;
  display: flex;
  align-items: center;
  padding: 45px 7%;
  border-radius: 14px;
  background:
    linear-gradient(90deg, rgba(15, 18, 16, .96), rgba(15, 18, 16, .2)),
    url("https://images.unsplash.com/photo-1534438327276-14e5300c3a48?auto=format&fit=crop&w=1600&q=85") center/cover;
}

.hero-content {
  max-width: 480px;
```

The screenshot shows the reset, page colors and fonts, navigation styles, page width, and hero banner. A Snipping Tool notification covers part of the lower-right editor area.

CSS Description - Rules and Elements

CSS selectors choose HTML elements or classes; properties control their appearance and layout.

* | Box sizing

Applies border-box sizing to every element, making widths easier to calculate when padding and borders are added.

html | Smooth scrolling

Makes jumps to page sections scroll smoothly.

body | General page style

Removes the default margin and sets the Arial font, light text color, dark background, and comfortable line spacing.

a | Links

Inherits the surrounding text color and removes the default underline.

.navbar | Navigation layout

Uses flexbox to place the logo, navigation links, and Join now link on one row with space between them.

.logo and nav | Brand and menu

Sets the logo size, weight, and letter spacing; colors the brand accent; and spaces menu links with flexbox and gap.

main | Content width

Sets a maximum width, centers the main content, and adds side padding.

.hero | Main banner

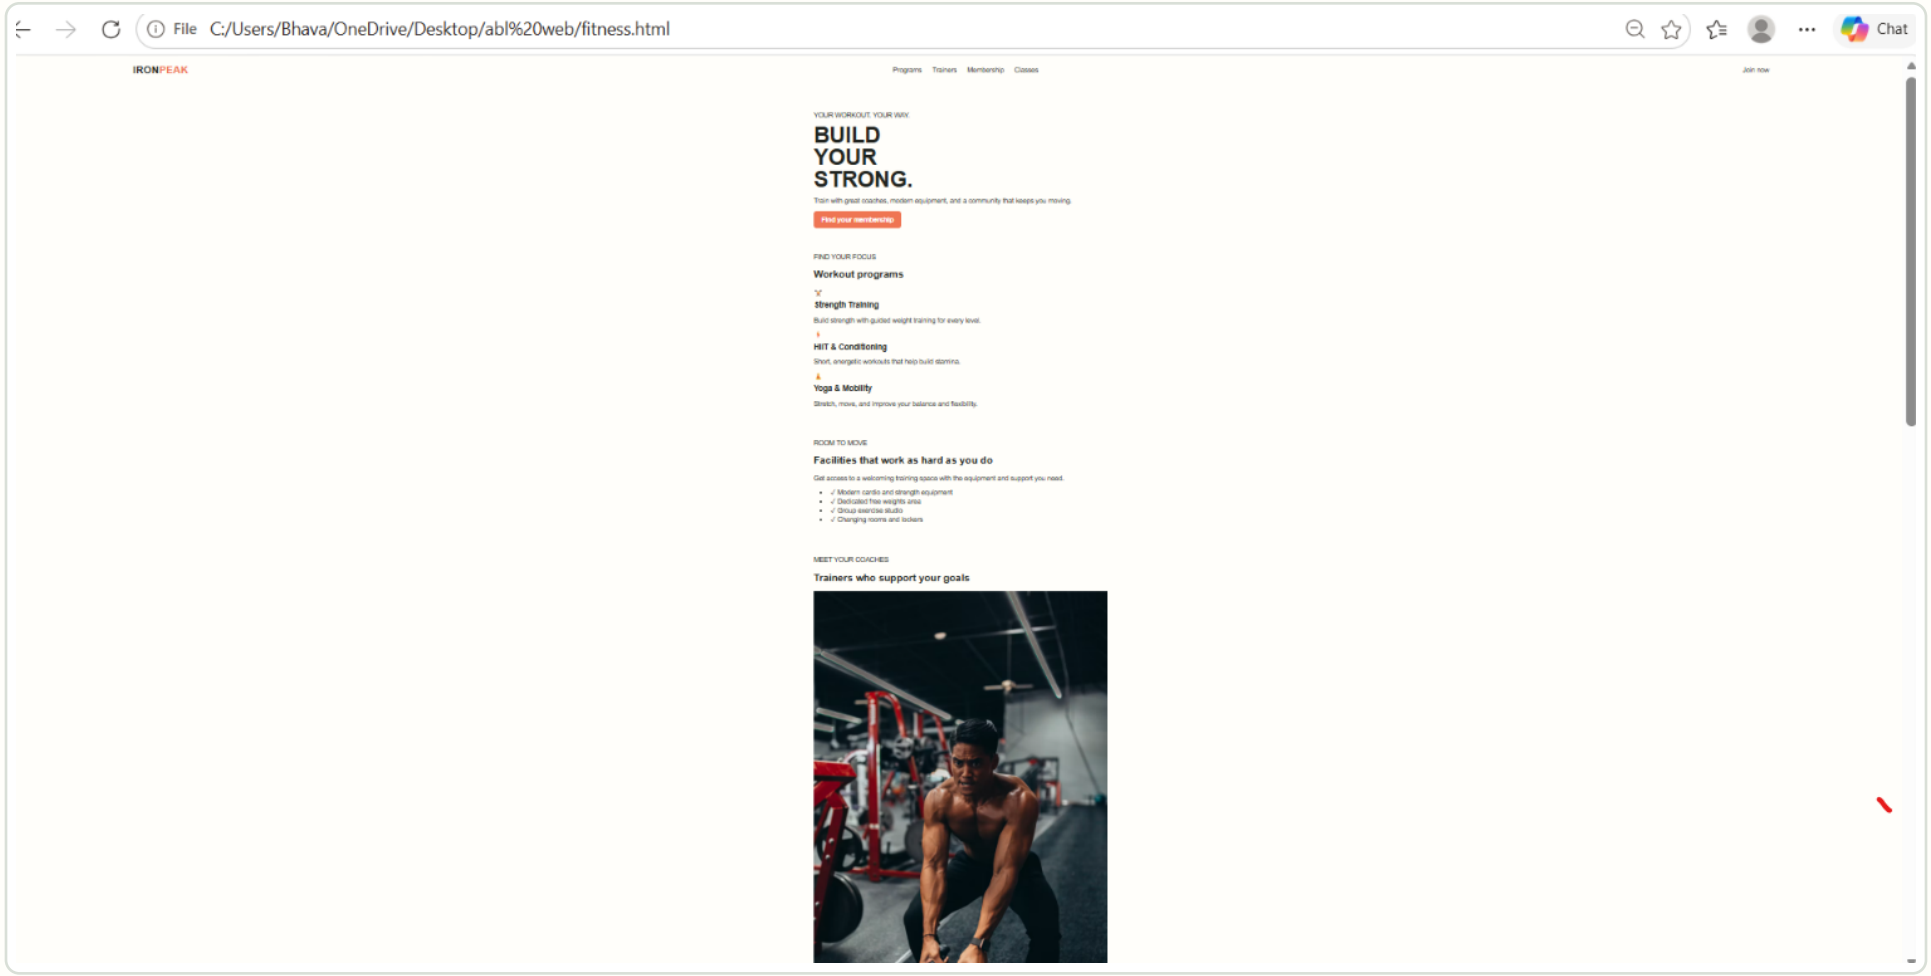

Sets the banner height, flex layout, centered content, padding, rounded corners, and layered dark overlay plus gym background image.

CSS PROPERTY EXAMPLES

display: flex arranges items in a row; gap adds space; background sets a color or image; border-radius rounds corners; font-size changes text size; and @media adjusts the layout for smaller screens.

3. Website Output

The third supplied image shows the IronPeak page opened in a browser.

VISIBLE OUTPUT

The browser view shows the IronPeak logo and menu, the BUILD YOUR STRONG hero, workout programs, a facilities list, and the start of the trainer section.

Conclusion

Summary of the fitness website project

IRONPEAK FITNESS CENTER AND GYM

The screenshots show a gym website that presents workout programs, fitness facilities, trainers, membership plans, and class information. HTML provides the page structure and content; CSS controls colors, spacing, typography, and responsive layout.

WHAT THE PROJECT DEMONSTRATES

The HTML sections and elements organize information into clear areas. The CSS rules style these areas and use flexbox, backgrounds, spacing, and responsive text to shape the page for different screens.

FINAL NOTE

The screenshots are for a fitness and gym website. They do not show a fest management website.

VISUAL CHECK

The CSS screenshot sets a dark page background, while the browser output looks mostly white. Check the stylesheet link if this difference is unexpected.
